New York Stock Market.

New York. May 28 — The stock market was more animated to-day but at the expense of values, the general conditions favoring the bears. The rail-way stocks received more attention than has been usual recently. In the industrials Sugar broke badly on reported declines in the domestic and foreign grades of the product, manipulation by insiders being discernable. Laciede Gas dropped 2½ on news of damage to the company's plant at St. Louis, but subsequently railited a point. On the raily the market became listless until near the close, when renewed pressure was exerted against the list, forcing prices to the lowest point. Burlington touched 77 against 78%, last night's final sale.
